Masjid Al-Aqsa: Treasures of the Holy Sanctuary

Discover the treasures of Masjid Al-Aqsa and why this sacred sanctuary lives at the heart of Muslim faith and identity. In this illuminating work, readers are invited on a profound journey into the sacred meanings of Masjid Al-Aqsa.

Drawing from the Prophetic traditions, the book reveals the spiritual treasures of this blessed land; treasures that transcend geography and architecture and speak instead to the eternal relationship between humanity and the Divine. Through a thoughtful and reflective lens, this book explores why Masjid Al-Aqsa has inspired generations to honour it, protect it and remain spiritually connected to it across time and distance. Dr Ismail Adam Patel is the founder of the UK-based NGO Friends of Al-Aqsa. He is the author of numerous books and is widely recognised as a leading voice on Palestine.

Women in Islam: Challenging Narratives

Many conflicting narratives exist regarding women in Islam and this subject is the cause of much criticism from the West levelled against Islam as a religion. The discrepancies between Islamic religious discourse and the practice of Muslim communities are often disregarded.

Women In Islam - Challenging Narratives intends to address certain misconceptions about women in Islam and dispel some common myths. At the same time, this book also challenges the accepted narrative that women in modern Western cultures are emancipated.

Naqsh-e-Hayat

This book is a Translation of Shaykh Husain Ahmad Madani's autobiography, highlighting the colonial practices that reduced Indians to economic poverty, erasing their culture and corrupting their faith. It shows the jihad of Shaykh Madani, free from the Eurocentric paradigm of vested interest and hierarchy. It explains why the British imprisoned him in Malta, for two years in Sabarmati prison with hard labour and in Nene Jail, Allahabad.

The book will be helpful to students and researchers across colleges, universities and Darul Ulooms. More than that, it will be useful to anyone who wants to learn about the anti-colonial movement in India.

Dome of the Rock

No visitor to Jerusalem can escape the enigmatic golden dome building poised majestically at the highest point of the city, 753 meters above sea level. Placed almost in the centre of a 35 acre trapezoidal platform it teases the observer closer, igniting an artistic and enquiring mind in the most casual spectator.

The Dome of the Rock, better known as the Qubbat as-Sakhrah, was completed in 691/2 and is probably the first masterpiece of Islamic art and architecture. The attention it commands due to its harmonious geometry and energetic colours easily captured within the visual field means it subsumes everything around it and mesmerises an individual.

Forty Ahadith - Masjid Al-Aqsa

Of all the symbols of Islam, the most neglected in our time is Masjid al-Aqsa, in Jerusalem. For various reasons, ranging from political compromise to appeasement, the Ummah has ignored not only the virtues but also the plight of this Holy Site.

It is with the intention to rekindle the love, affection and devotion of Muslims to Masjid al-Aqsa that I have compiled this small booklet of 40 ahadith. Since the Prophet Muhammad (pbuh) showed such great concern for it and inculcated into the Companions the need to liberate Masjid al-Aqsa and Jerusalem I hope we can adorn the teachings of our Noble Prophet (pbuh) and take the urgent practical step required to safeguard Masjid al-Aqsa.
